

Detector level kinematic efficiency (prompt D^0 's)

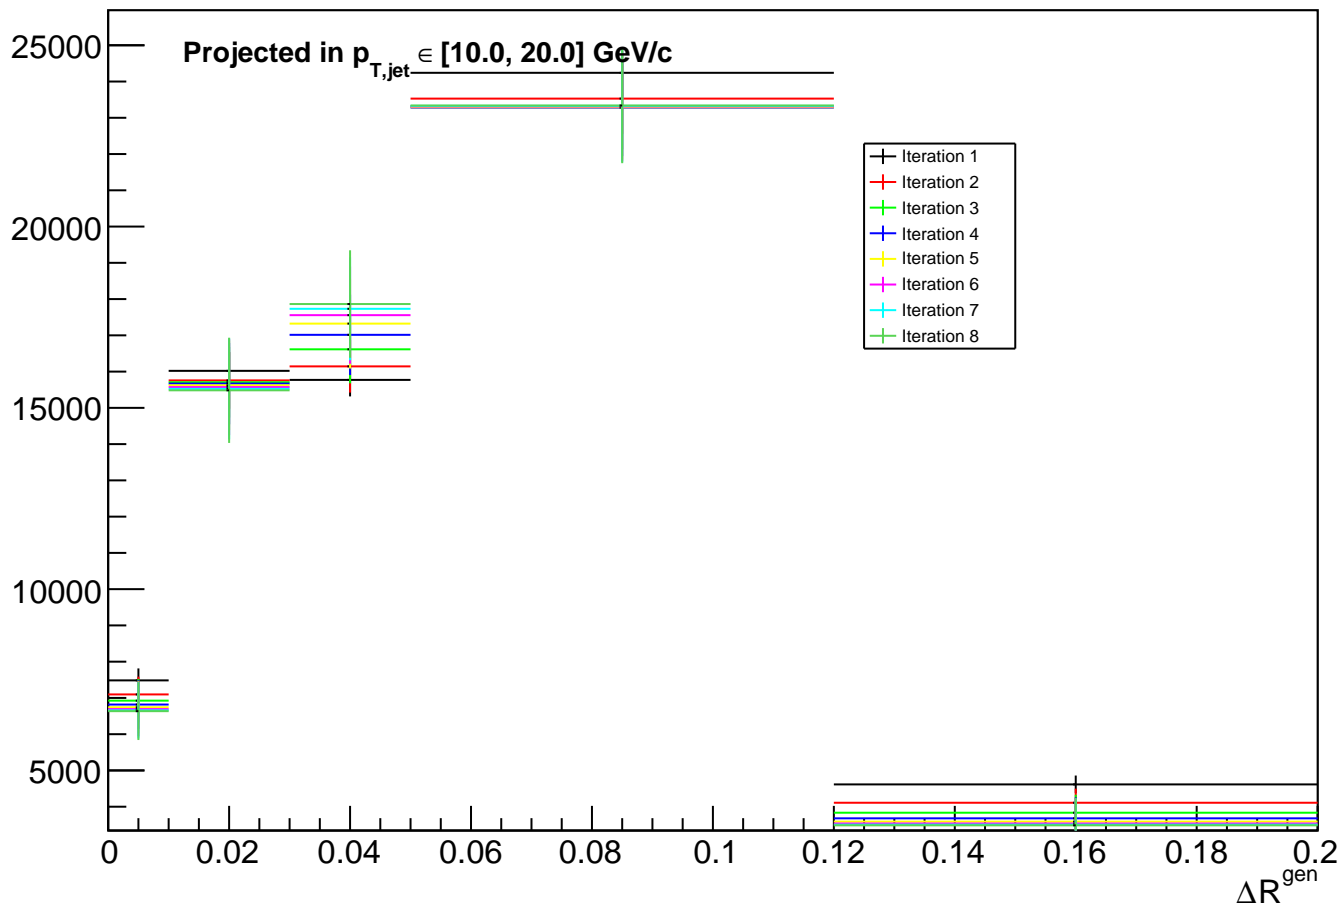

Particle level kinematic efficiency (prompt D^0 's)

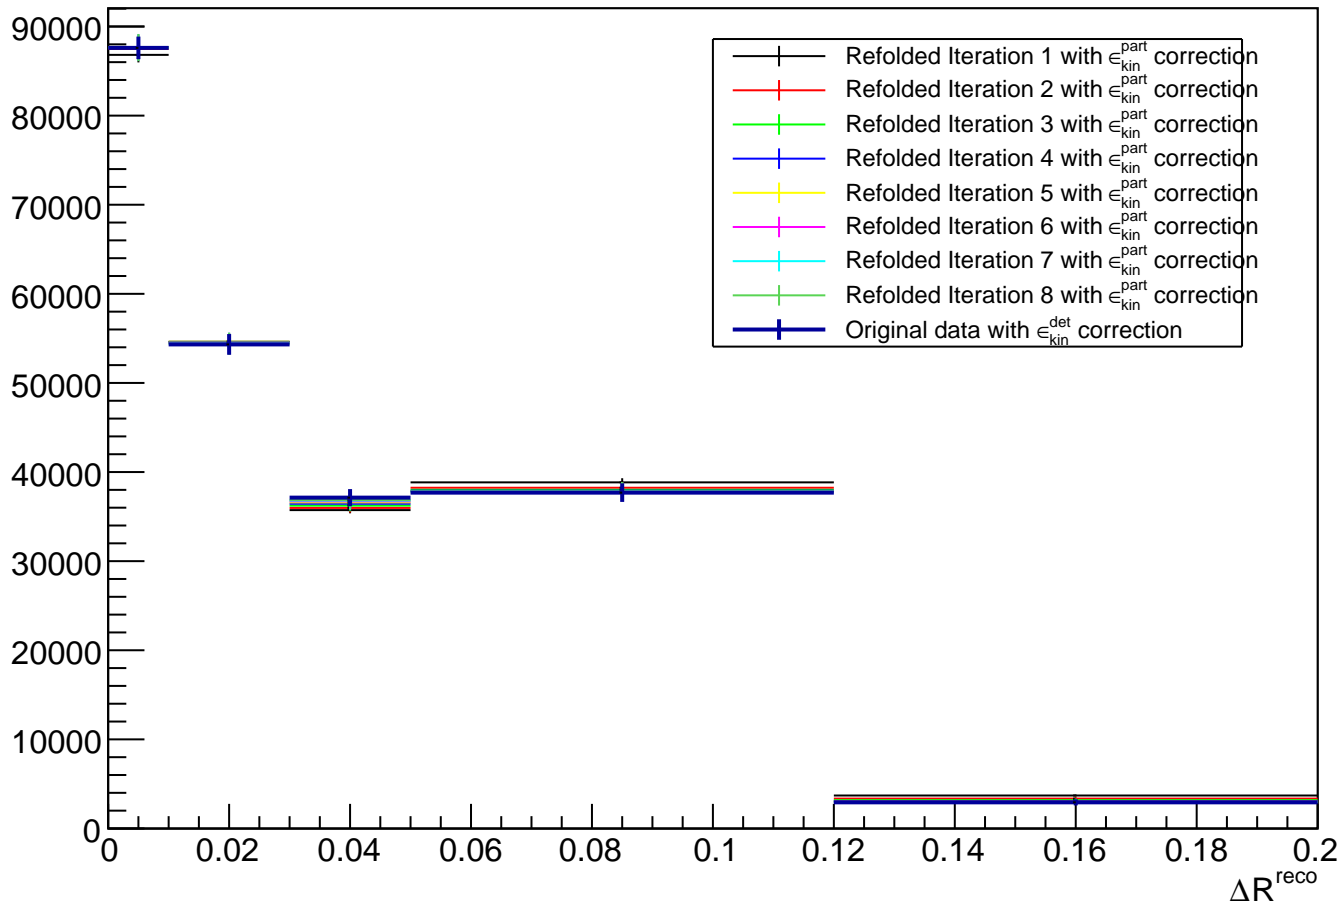

2D response matrix from 4D RooUnfoldResponse - prompt D^0 'sResponse matrix projection on ΔR Response matrix projection on $p_{T,\text{jet}}$ 

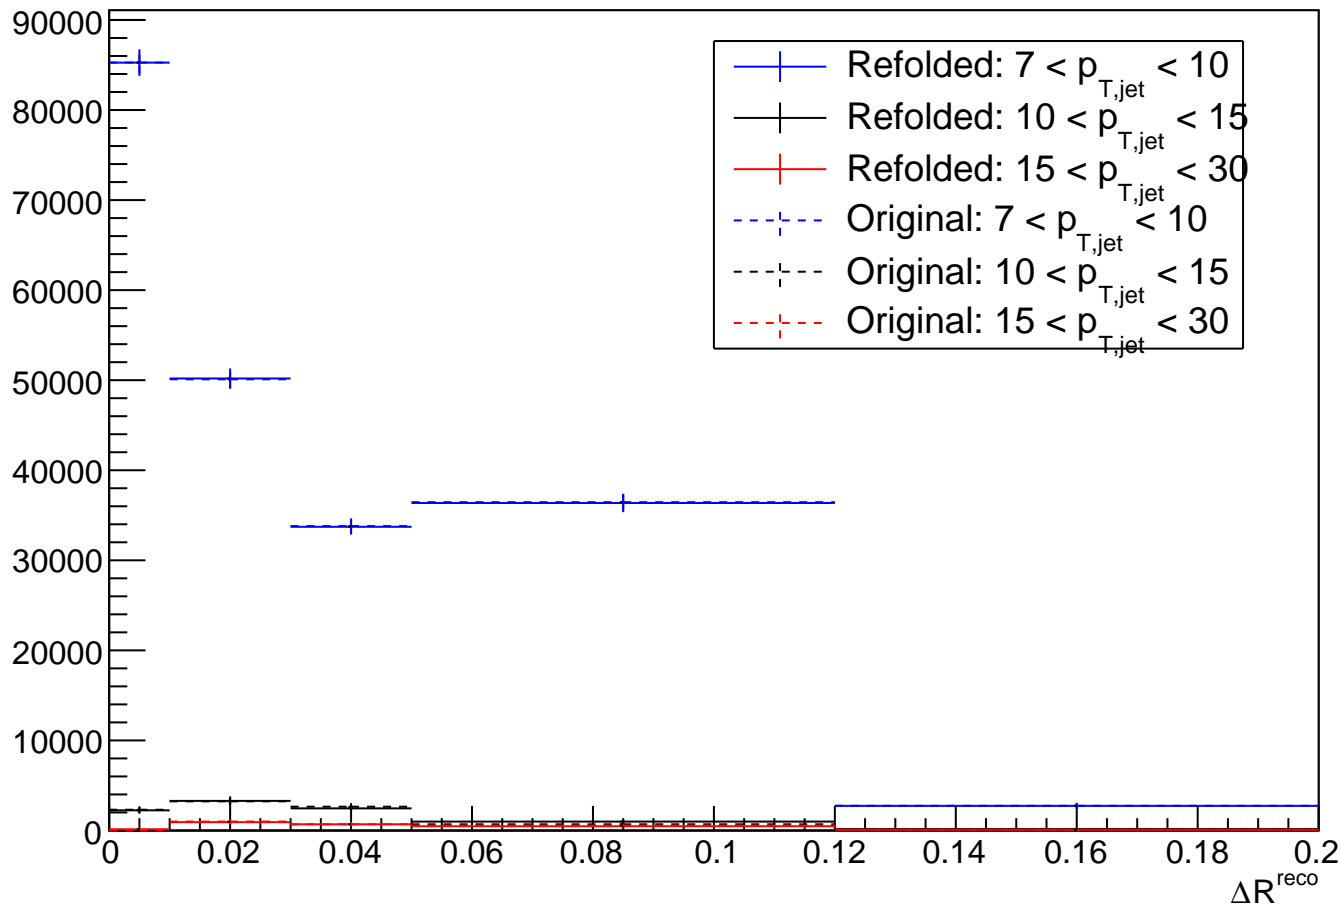

Unfolded with $\epsilon_{\text{kin}}^{\text{particle}}$ correction

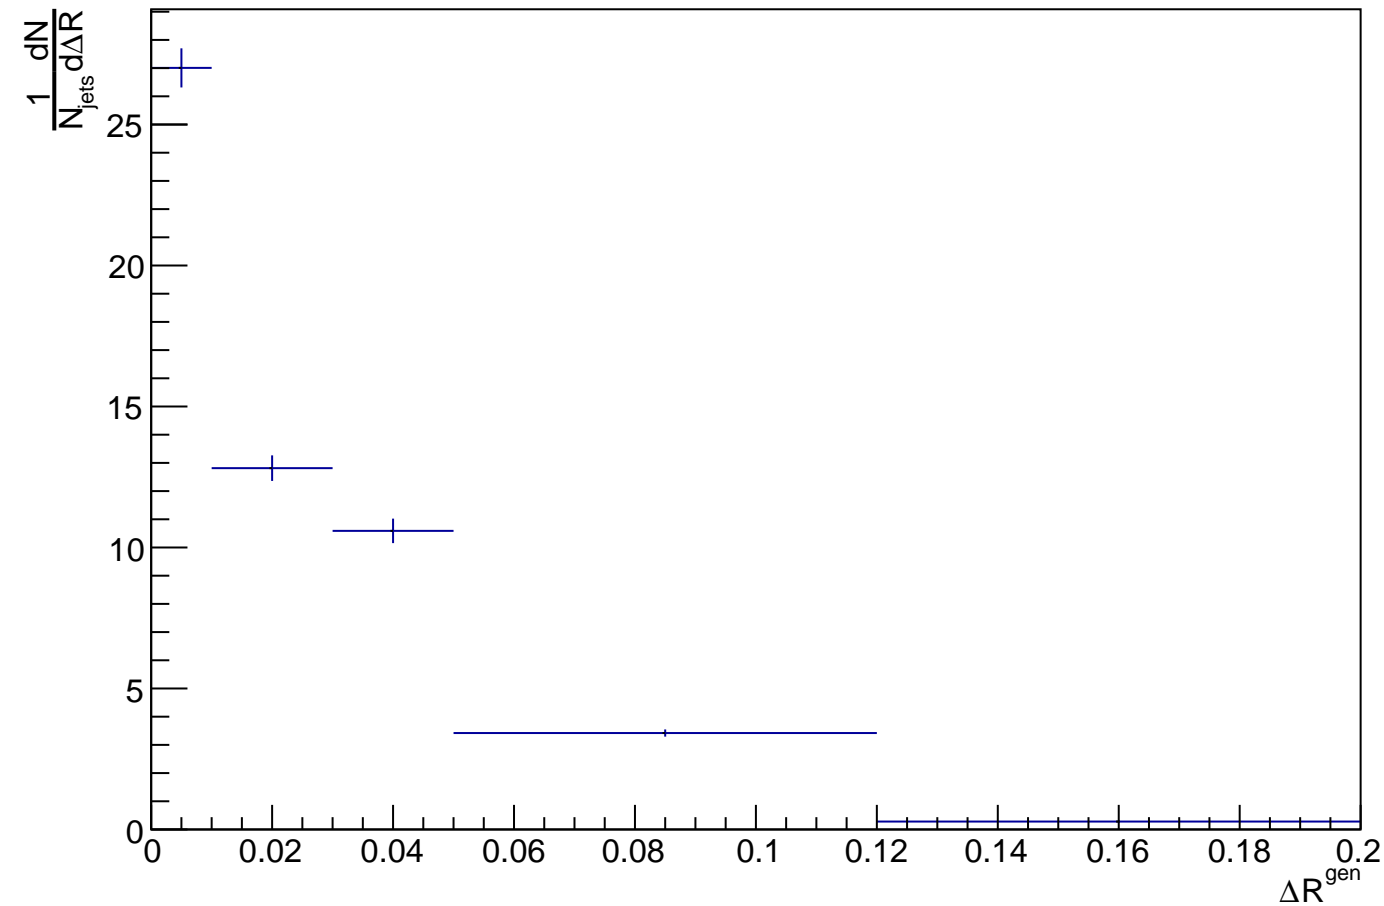

Refolding test

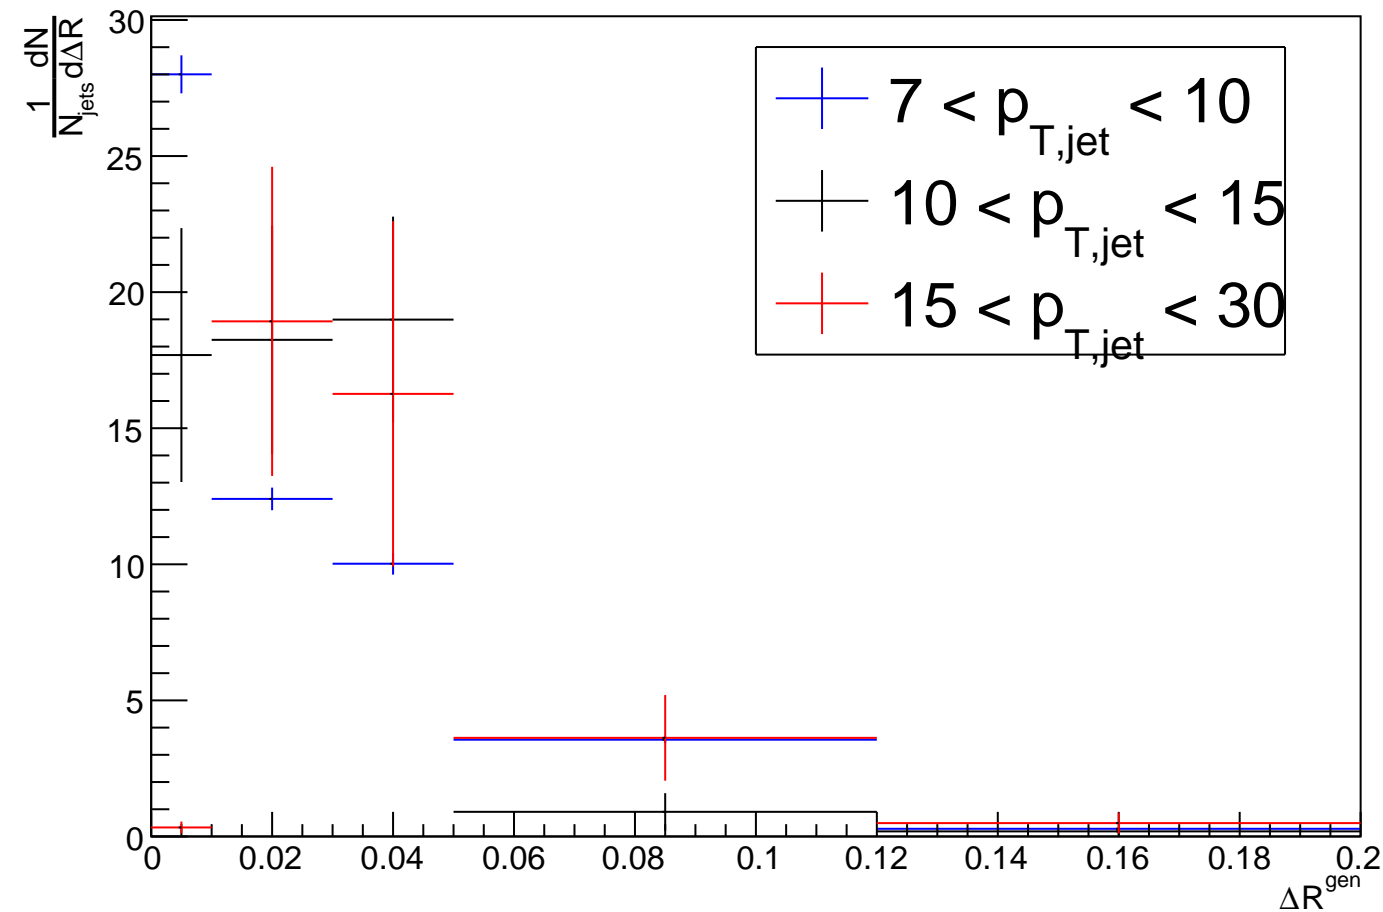

Refolded with 8 iterations

Self-normalized unfolded distribution for last iteration

Self-normalized unfolded distribution for last iteration

Iteration 1 / original ratio
