

POWHEG + PYTHIA

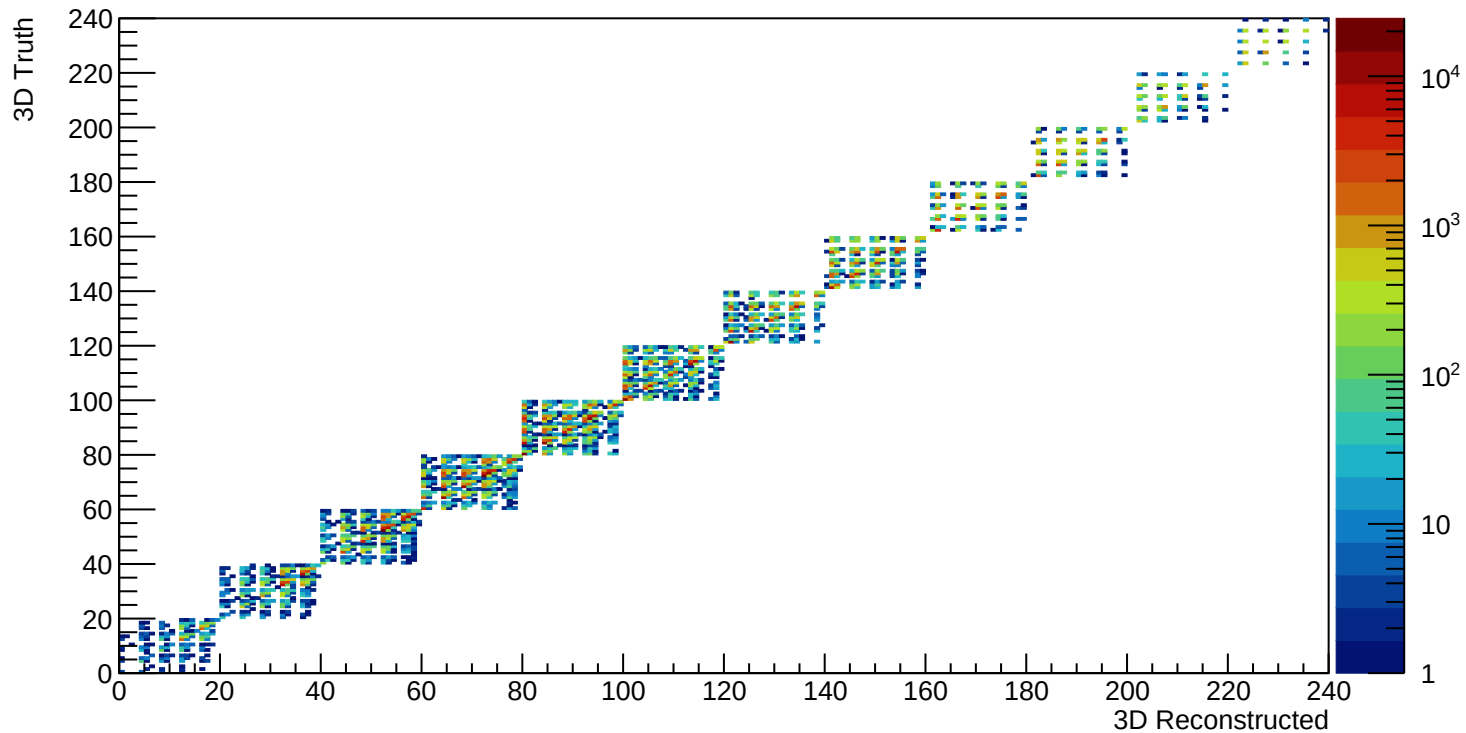

POWHEG + PYTHIA yx projection

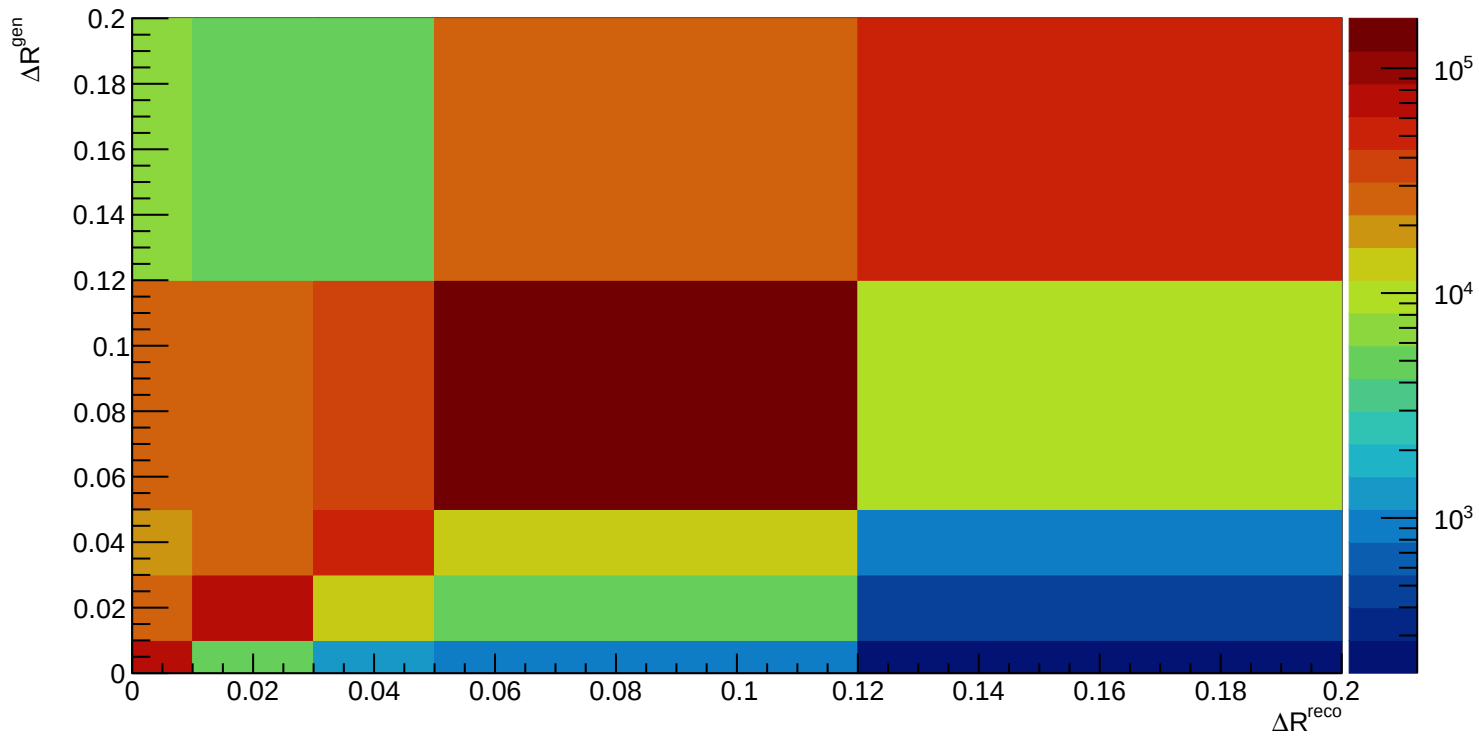

POWHEG + PYTHIA yx projection

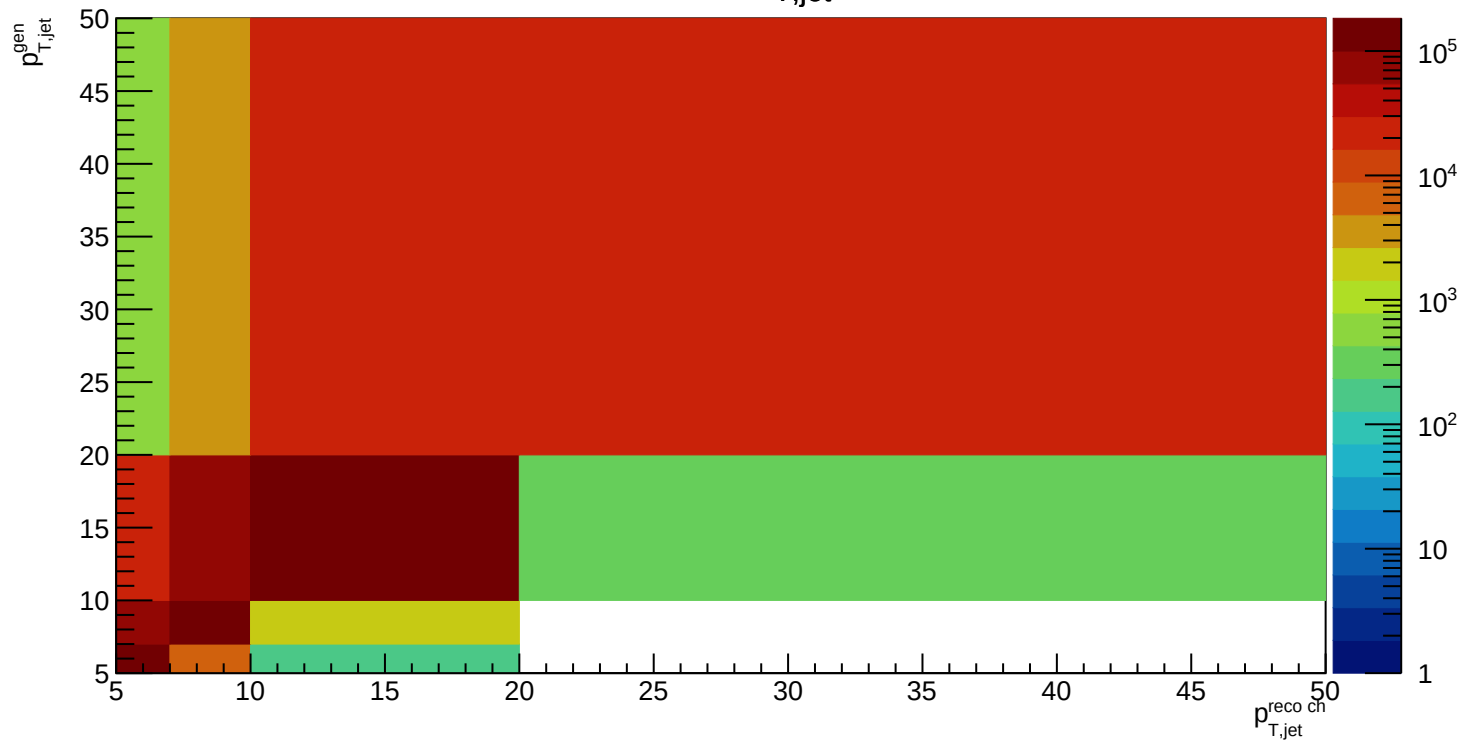

2D response matrix from 6D RooUnfoldResponse - non-prompt D^0 's

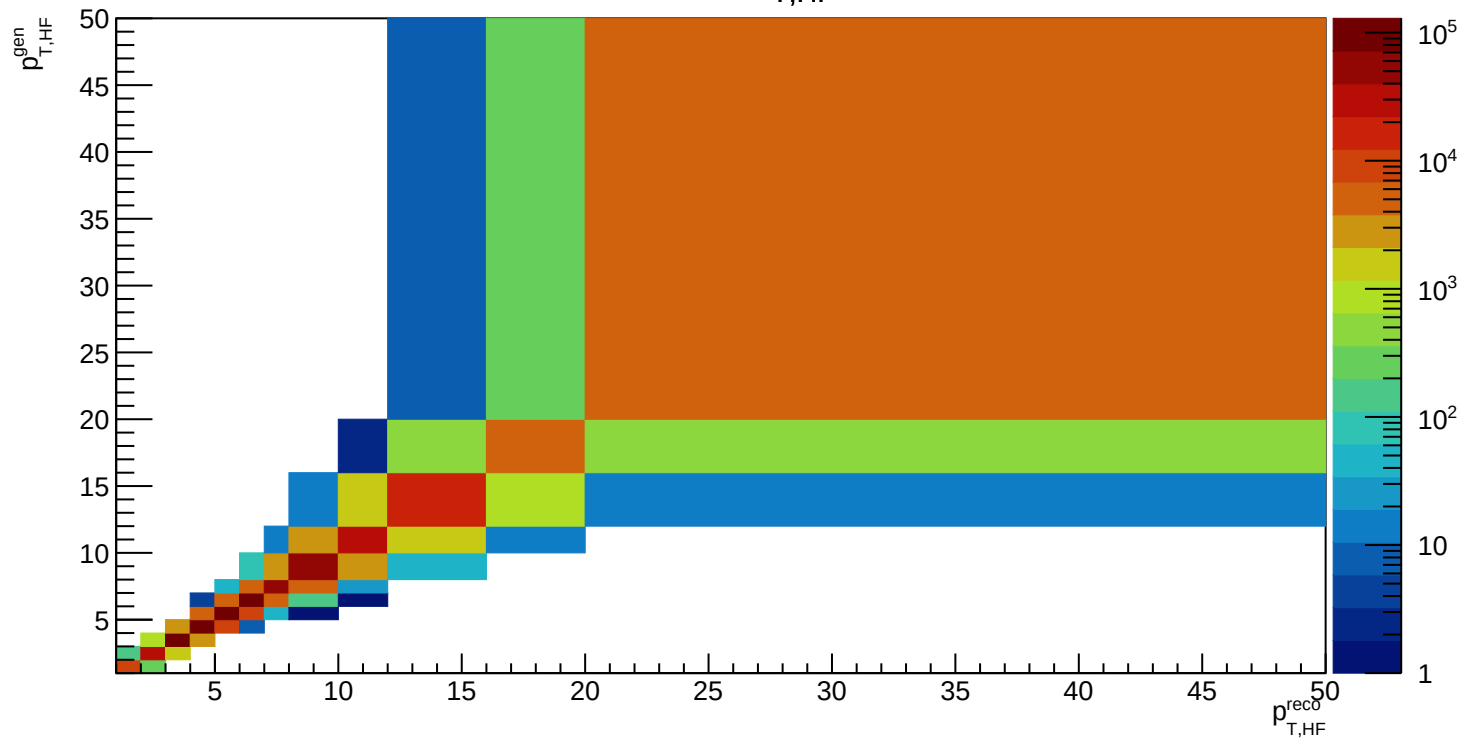

Response matrix ΔR projection

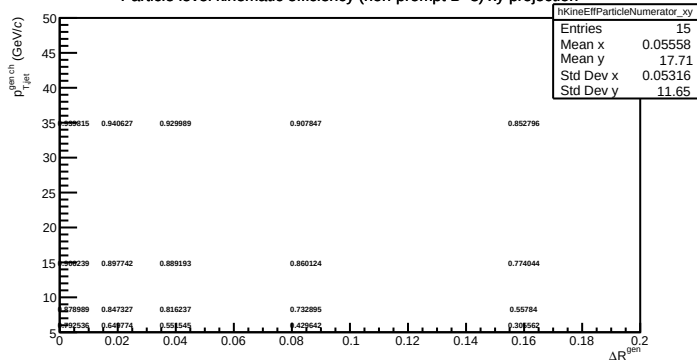

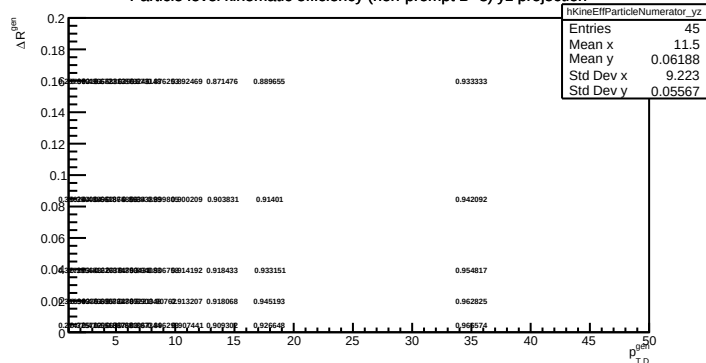

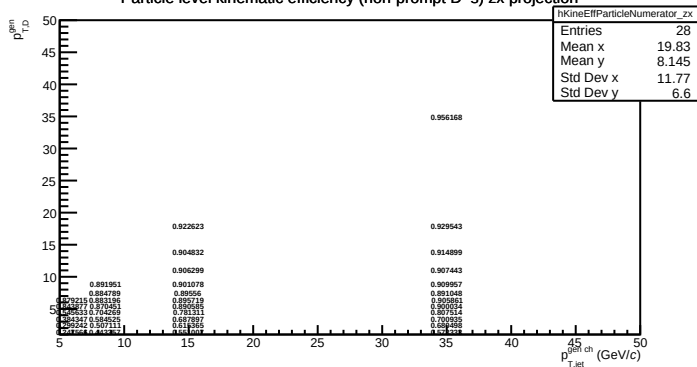

Response matrix $p_{T,jet}$ projection

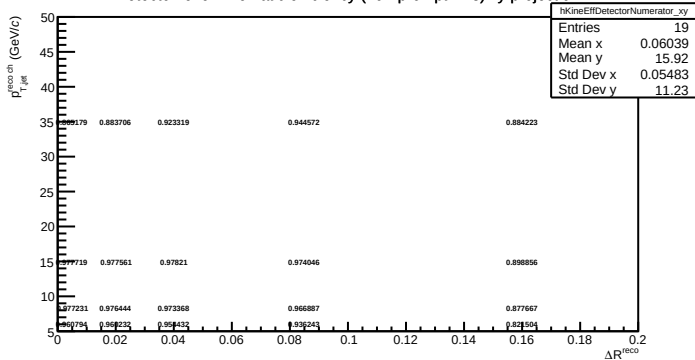

Response matrix $p_{T,HF}$ projection

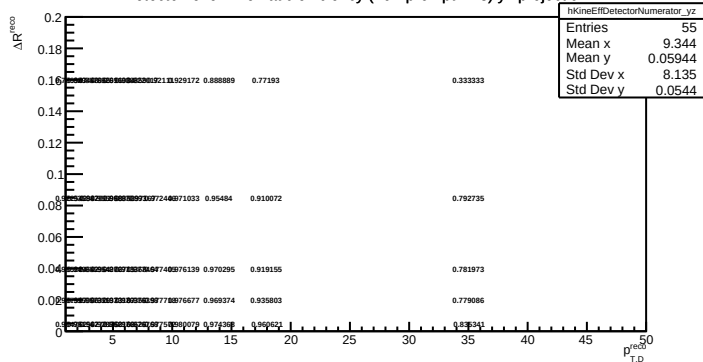

Particle level kinematic efficiency (non-prompt D^0 s) xy projectionParticle level kinematic efficiency (non-prompt D^0 s) yz projectionParticle level kinematic efficiency (non-prompt D^0 s) zx projection

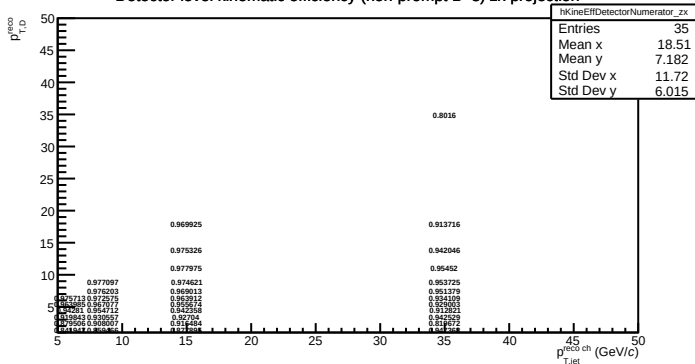

Detector level kinematic efficiency (non-prompt D^0 's) xy projection

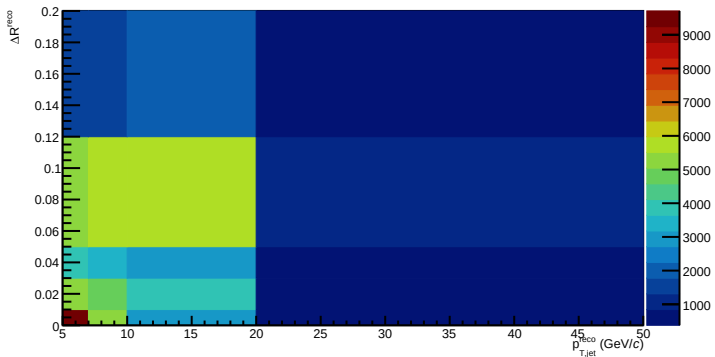

Detector level kinematic efficiency (non-prompt D^0 's) yz projection

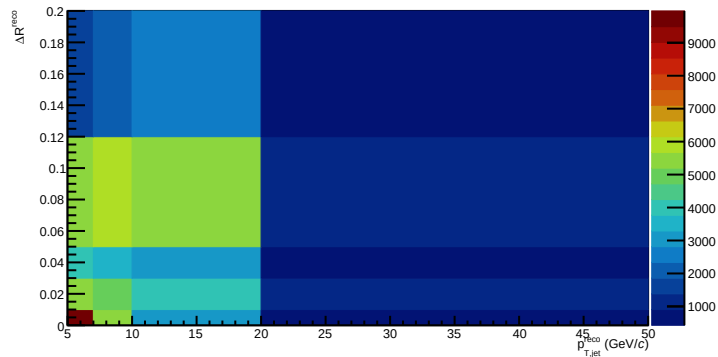

Detector level kinematic efficiency (non-prompt D^0 's) zx projection

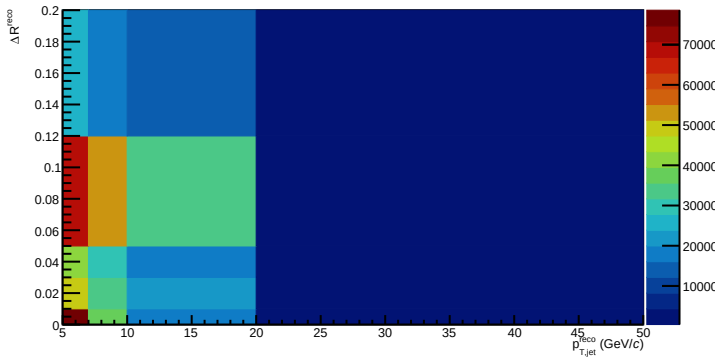

Folded 3D histogram yx projection

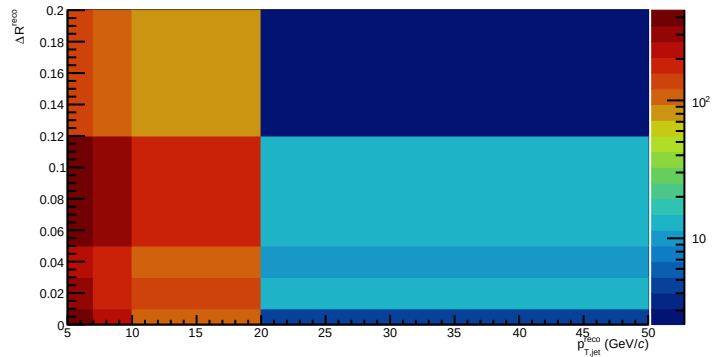

Folded 2D histogram with $\epsilon_{kin}^{detector}$ correction yx projection

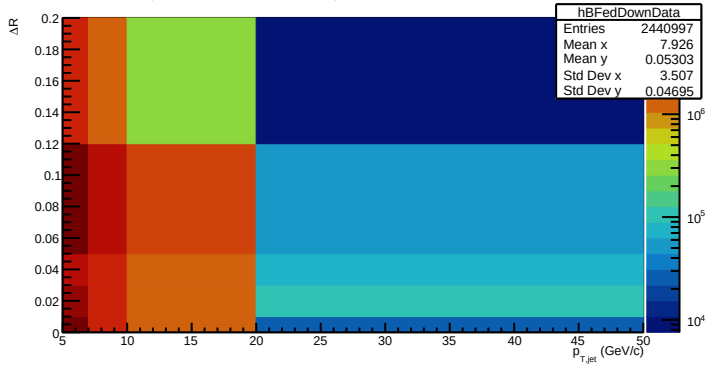

Folded 2D histogram with $\epsilon_{kin}^{detector}$ correction yx projection

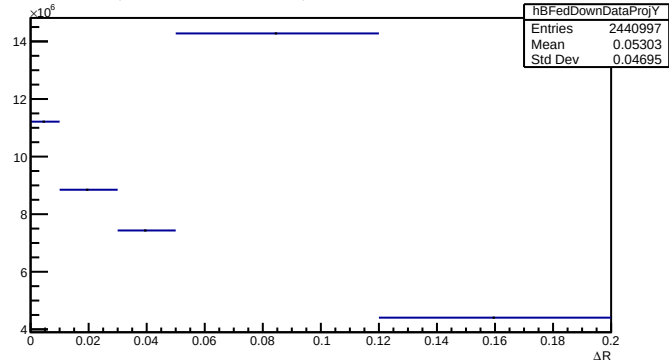

Pure non-prompt fully corrected distribution (as found in data)

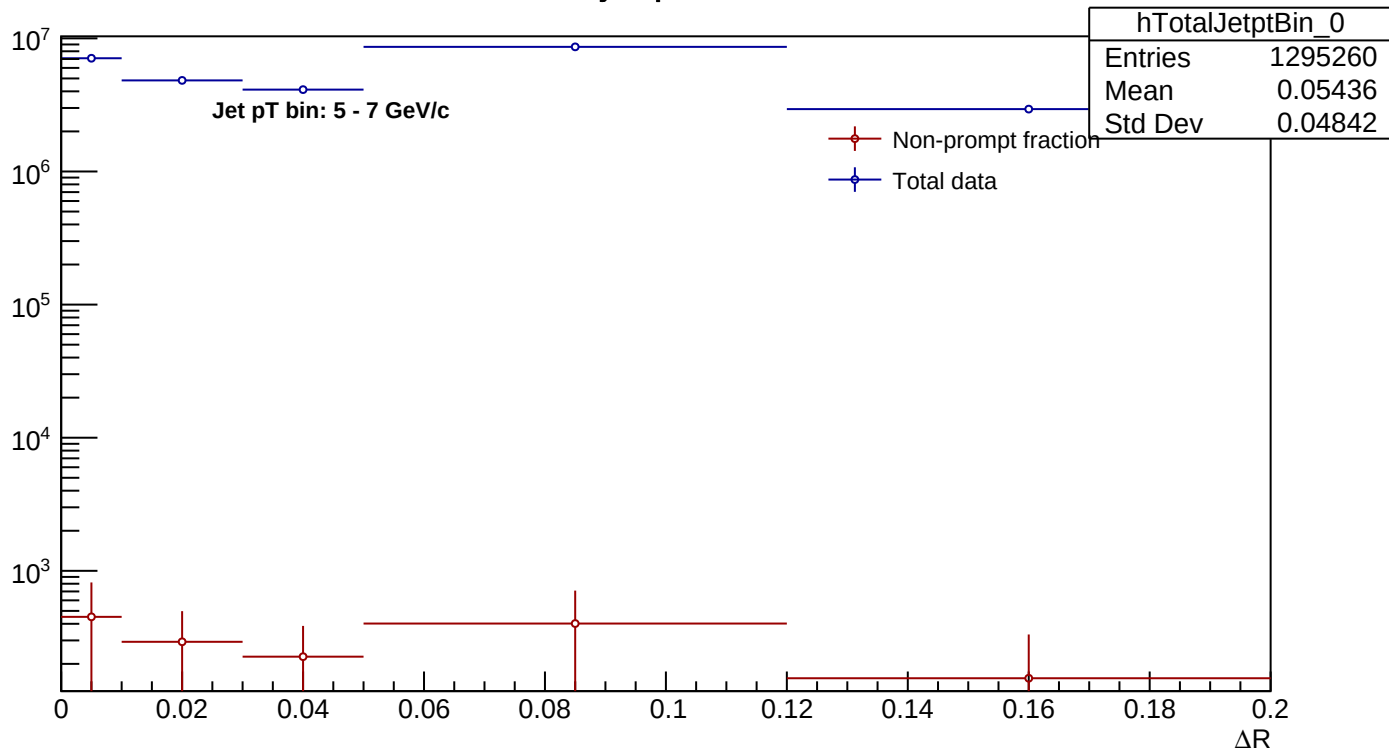

Background subtracted, efficiency corrected, fed down data distribution

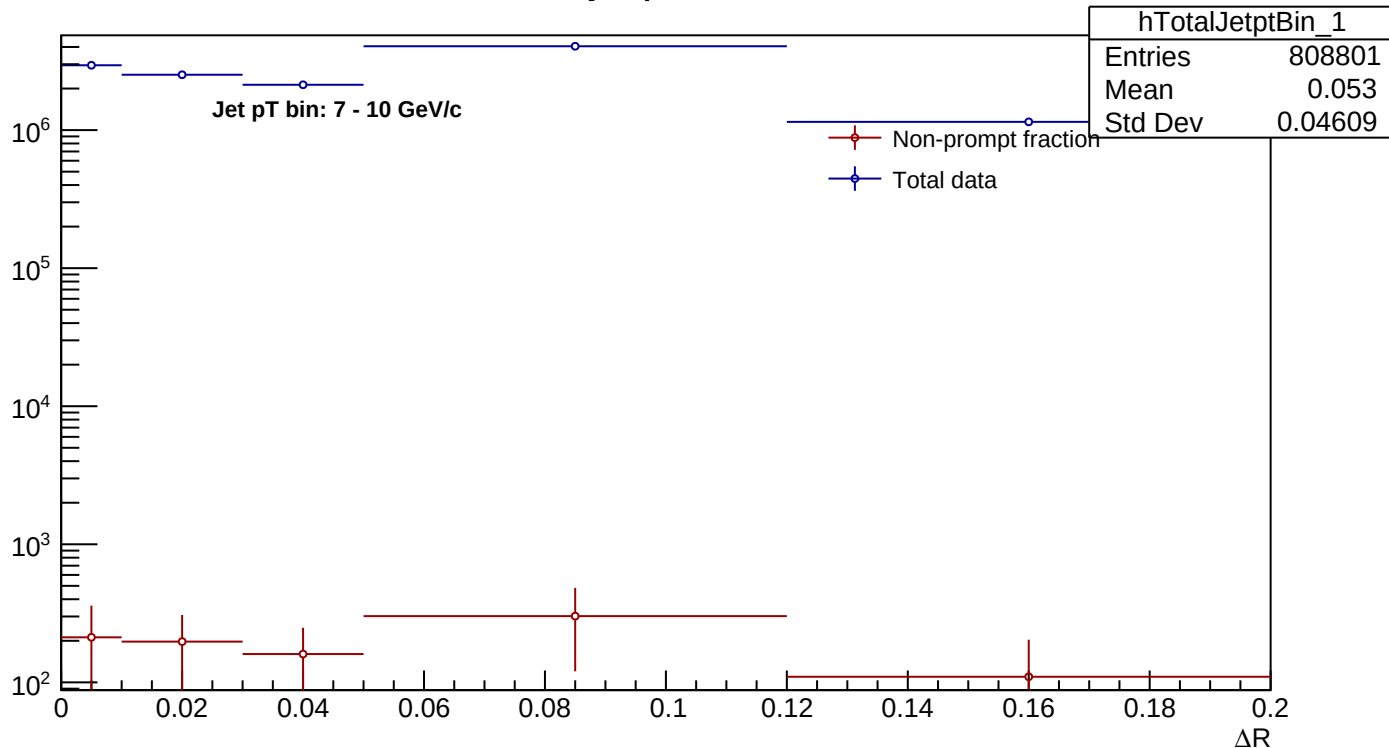

Background subtracted, efficiency corrected, fed down data distribution

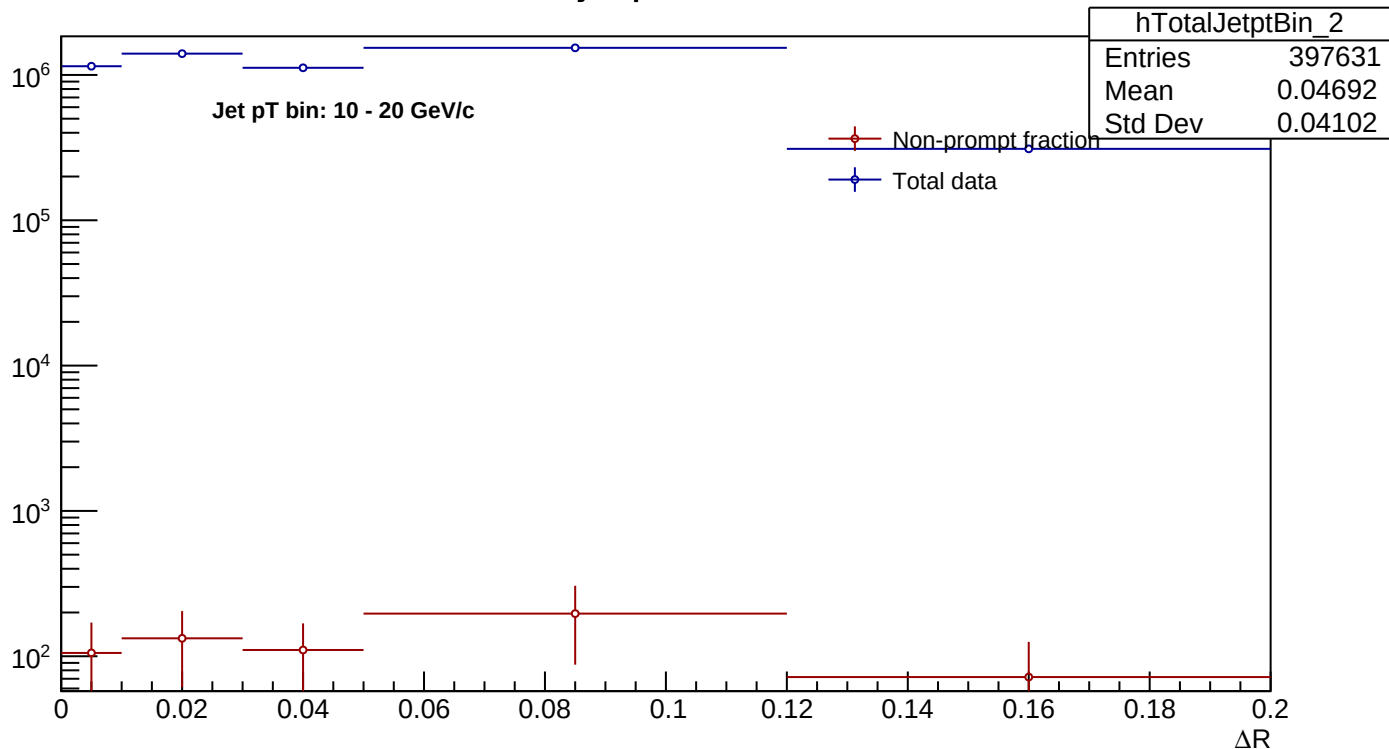

Total data for jet pT bin 5 - 7 GeV/c

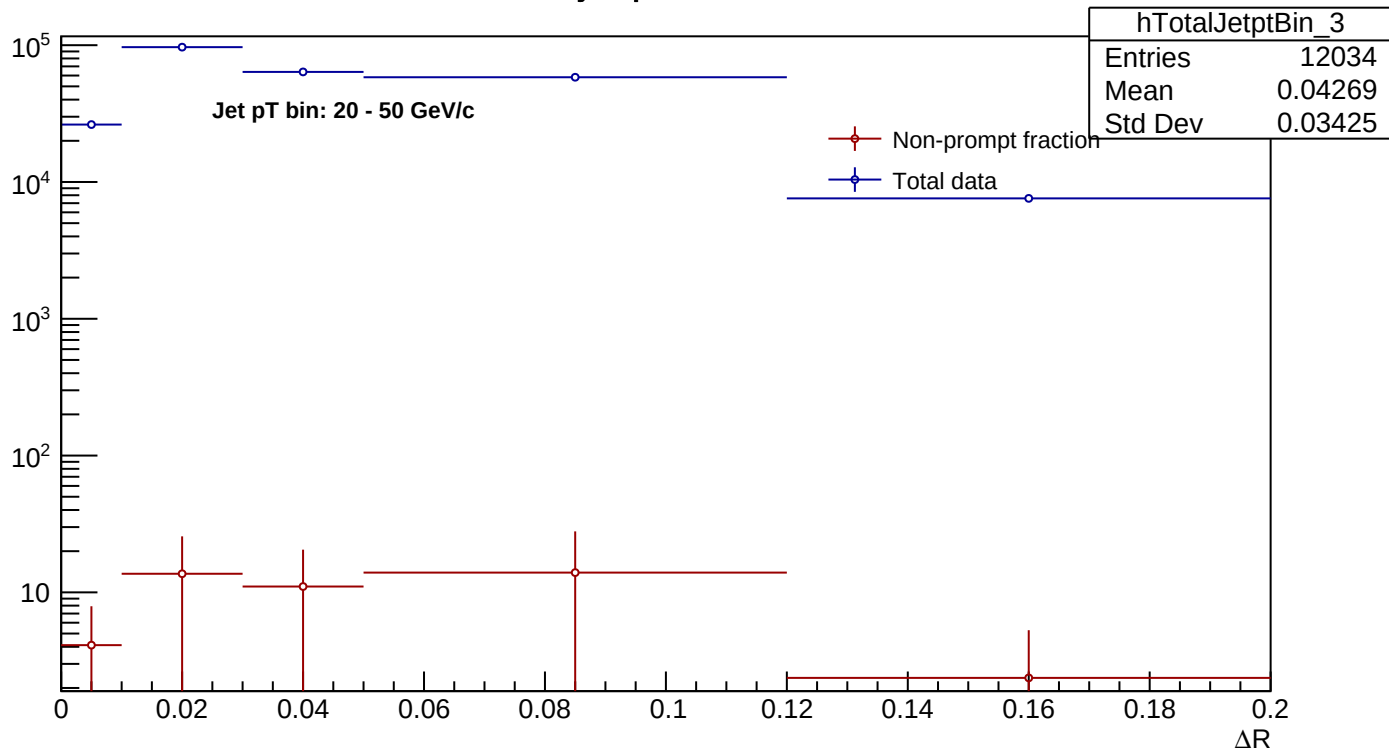

Total data for jet pT bin 7 - 10 GeV/c

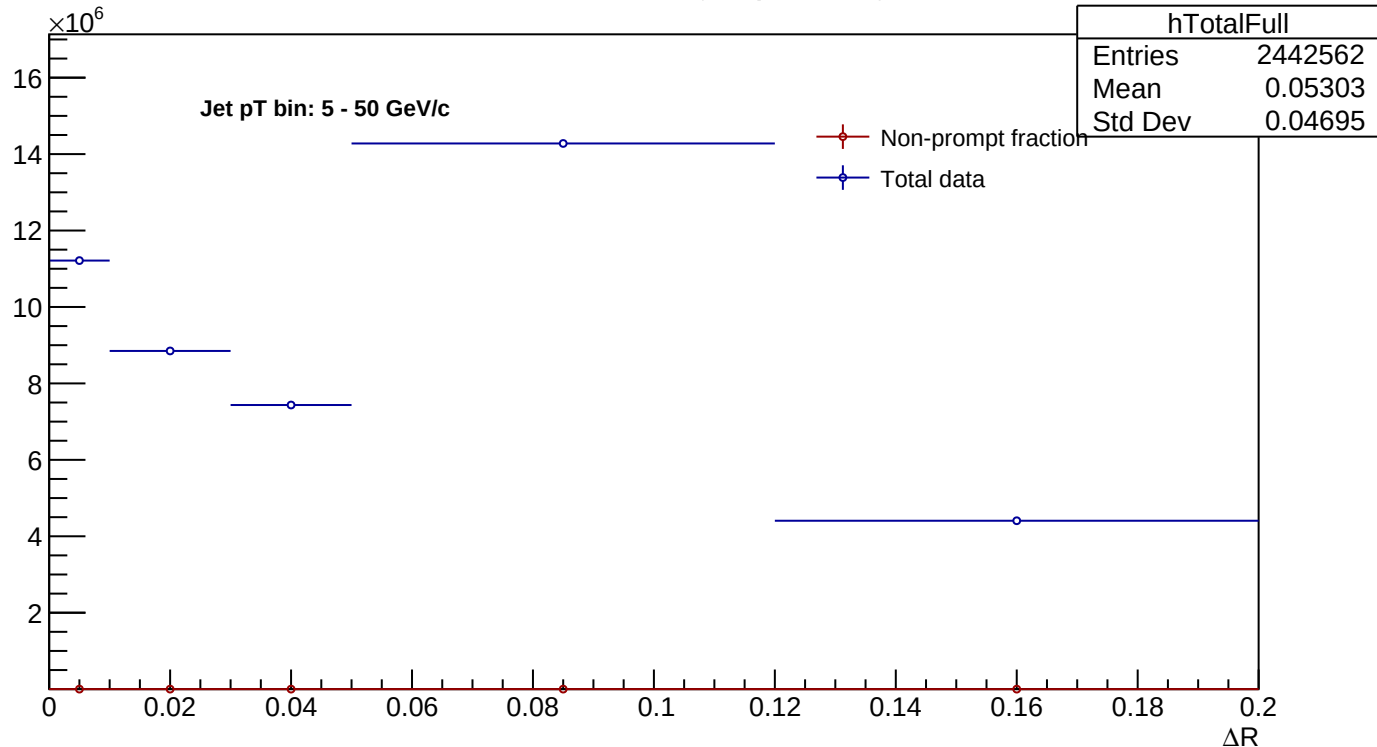

Total data for jet pT bin 10 - 20 GeV/c

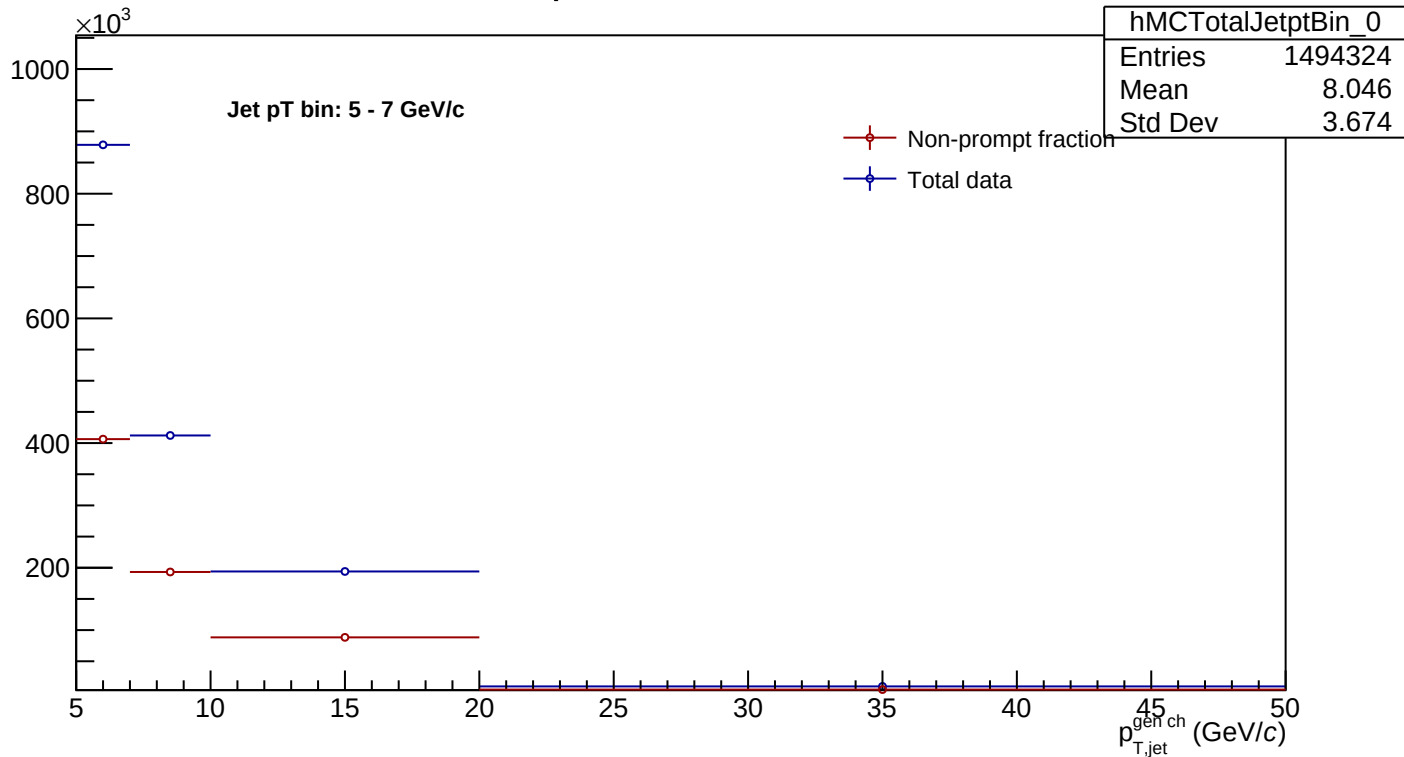

Total data for jet pT bin 20 - 50 GeV/c

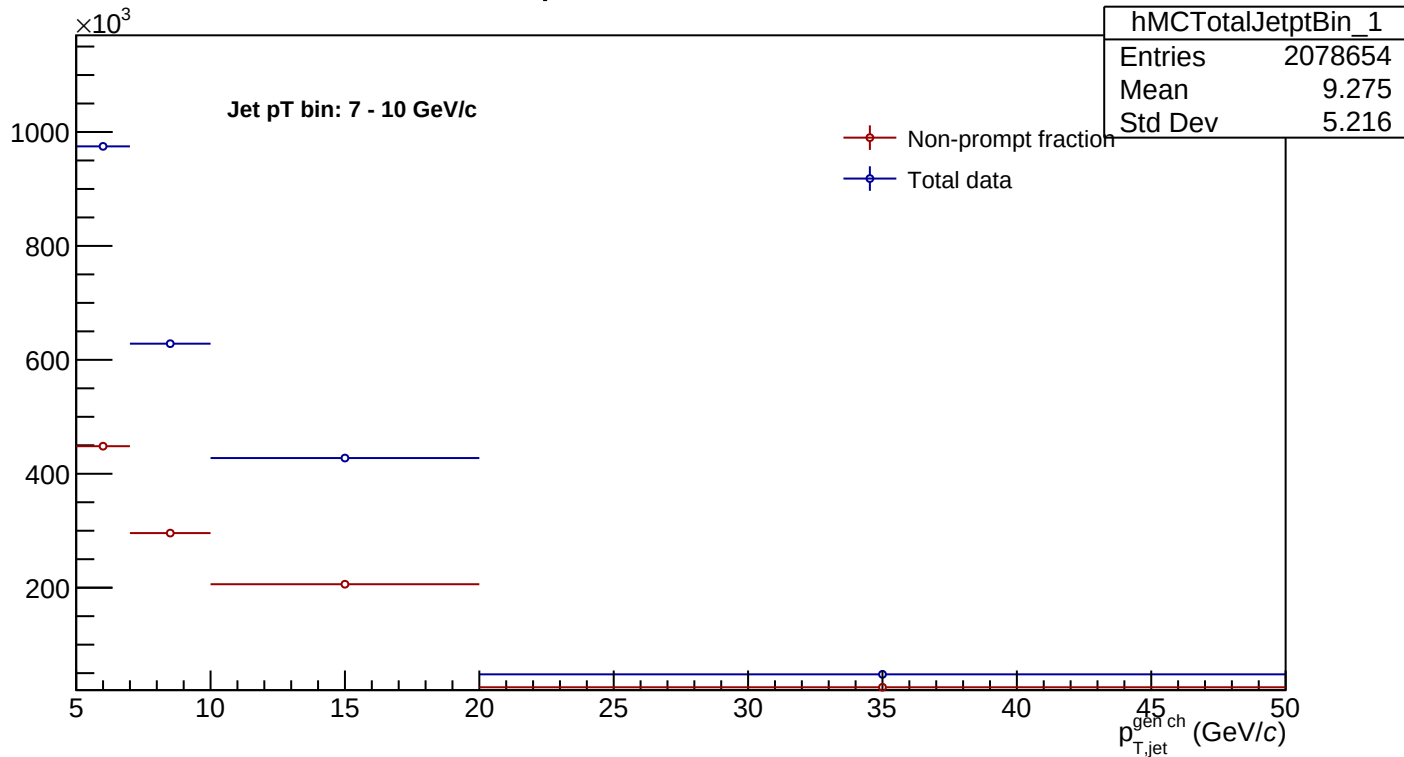

Total data for full jet pT range

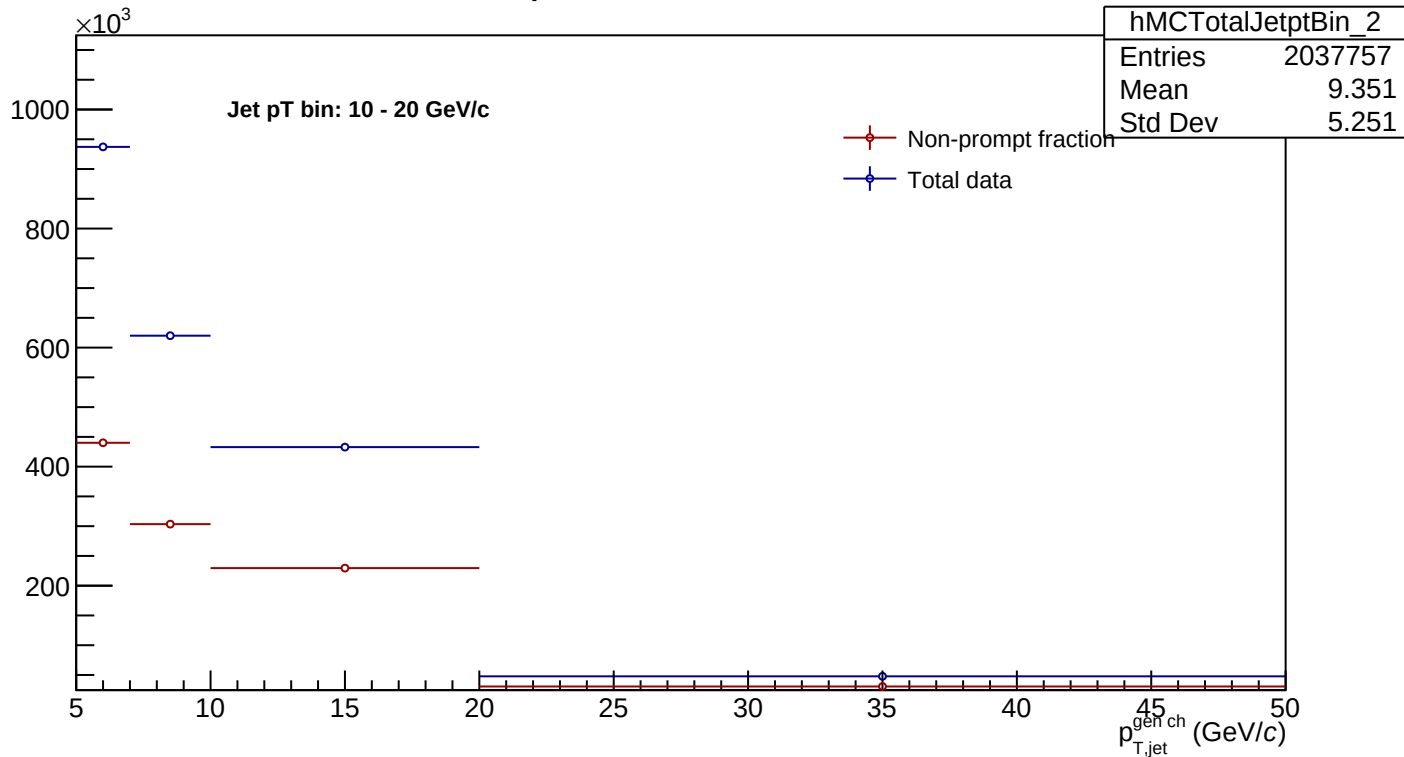

Jet pT bin 5 - 7 GeV/c

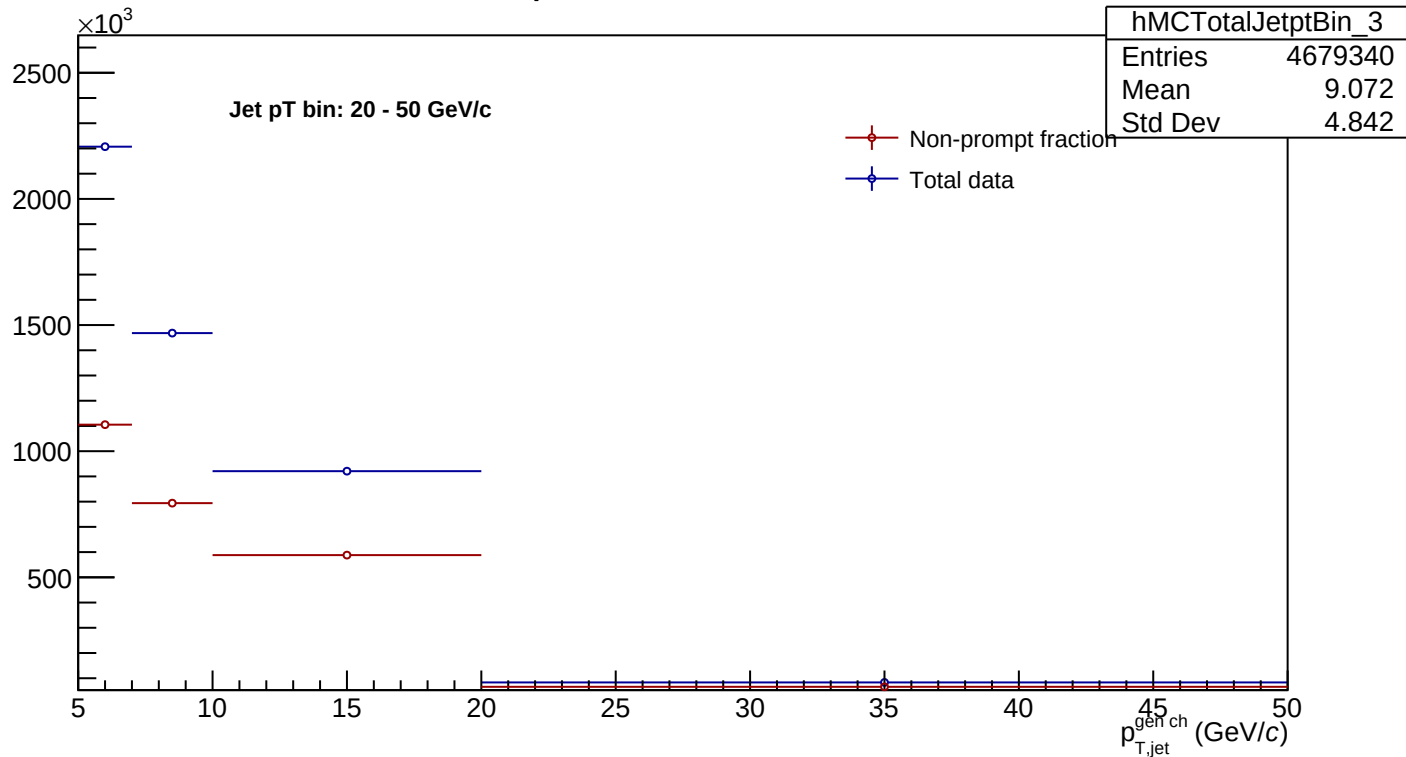

Jet pT bin 7 - 10 GeV/c

Jet pT bin 10 - 20 GeV/c

Jet pT bin 20 - 50 GeV/c

Jet pT bin 20 - 50 GeV/c
