

Particle level data prompt yield distribution

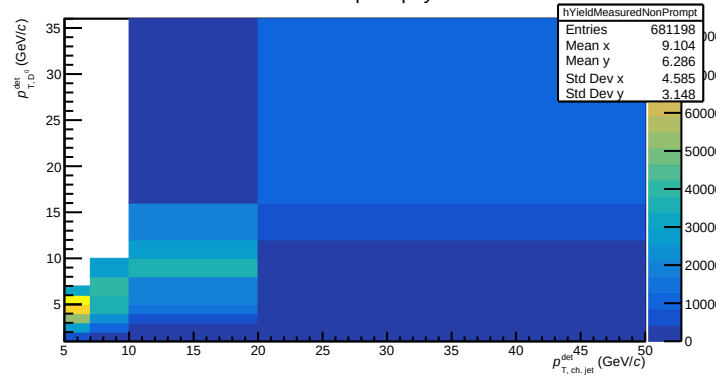

Particle level data non-prompt yield distribution

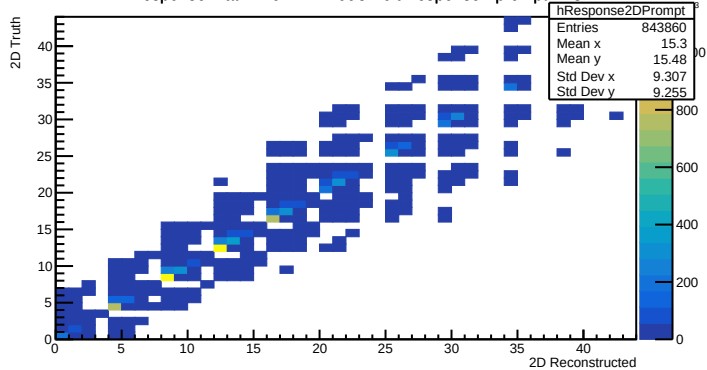

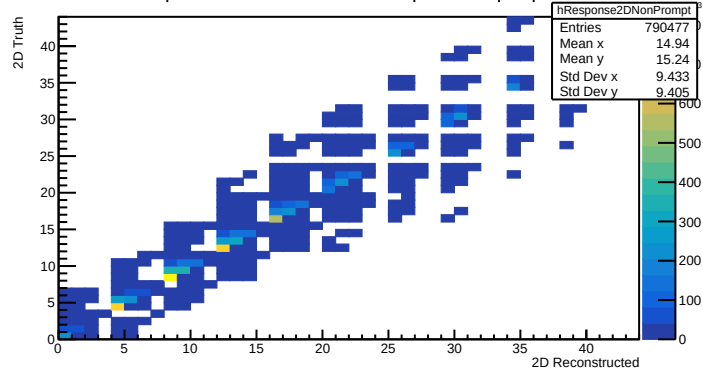

Detector level data prompt yield distribution

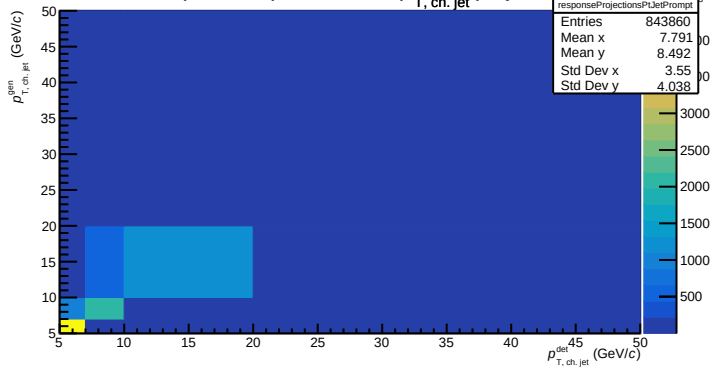

Detector level data non-prompt yield distribution

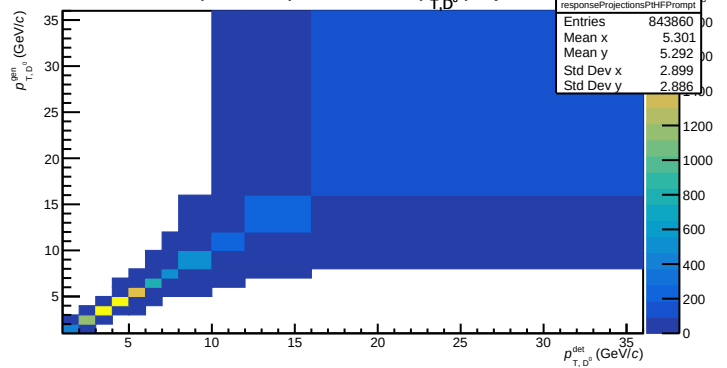

2D response matrix from 4D RooUnfoldResponse - prompt D^0 's2D response matrix from 4D RooUnfoldResponse - non-prompt D^0 's

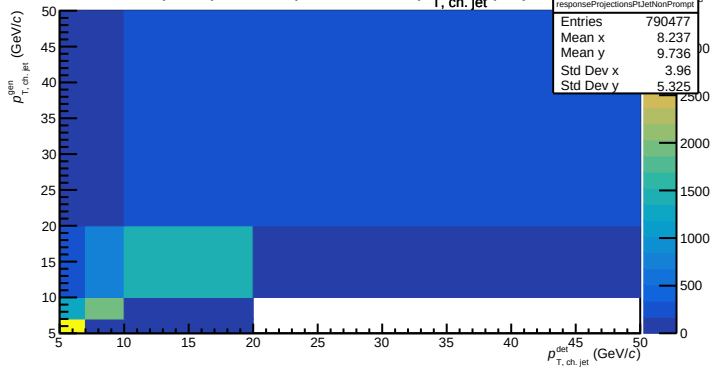

Prompt D^0 's reponse matrix $p_{T, \text{ch. jet}}$ projection

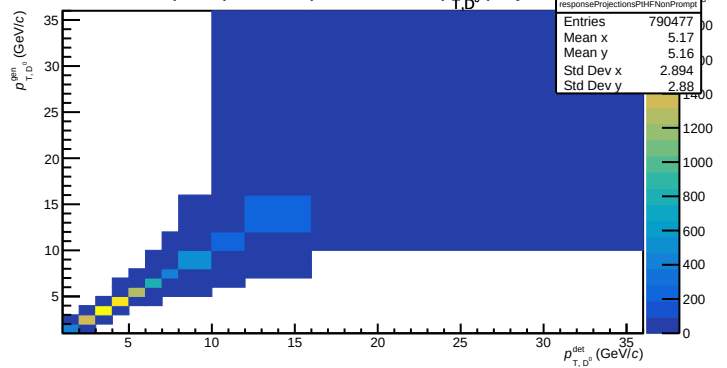

Prompt D^0 's reponse matrix p_{T, D^0} projection

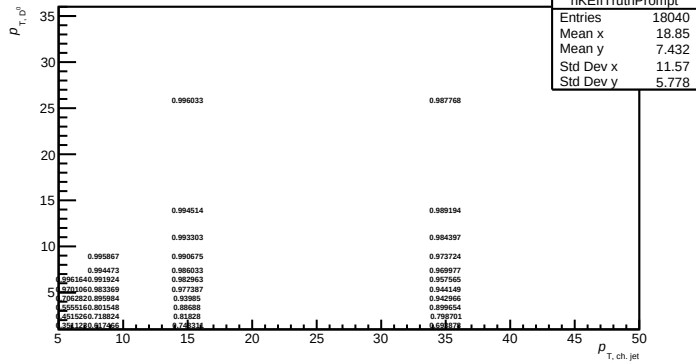

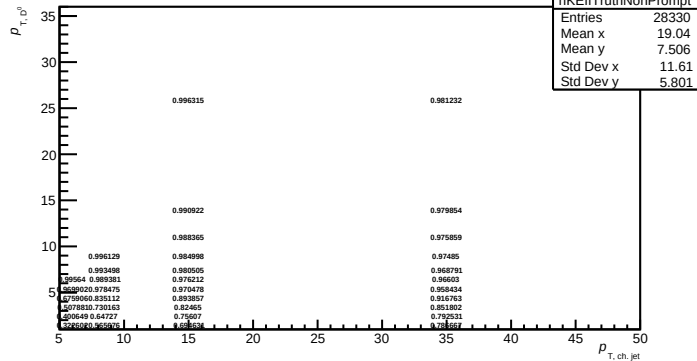

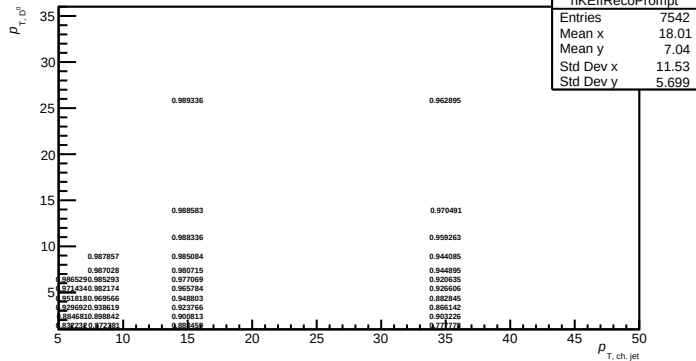

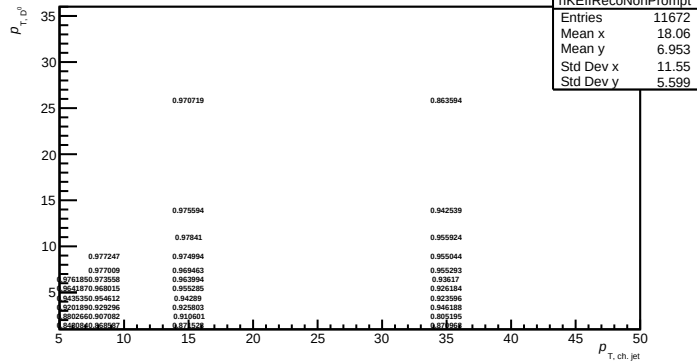

Non-prompt D^0 's reponse matrix $p_{T, \text{ch. jet}}$ projection

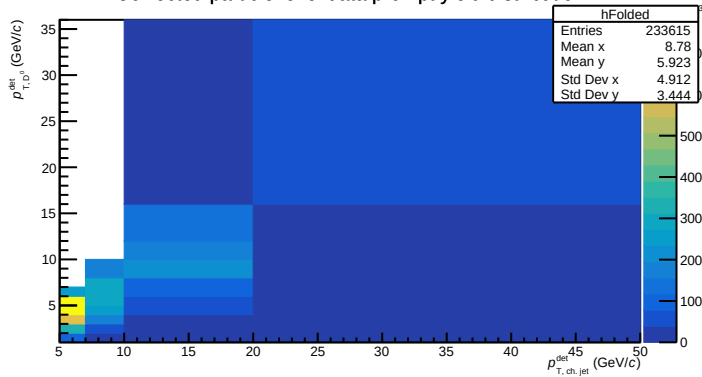

Non-prompt D^0 's reponse matrix p_{T, D^0} projection

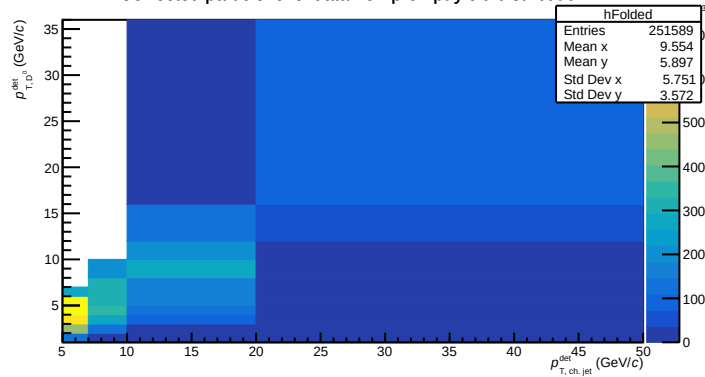

$\epsilon_{\text{kinematic}}$ of particle level prompt D^0  $\epsilon_{\text{kinematic}}$ of particle level non-prompt D^0  $\epsilon_{\text{kinematic}}$ of detector level prompt D^0  $\epsilon_{\text{kinematic}}$ of detector level non-prompt D^0 

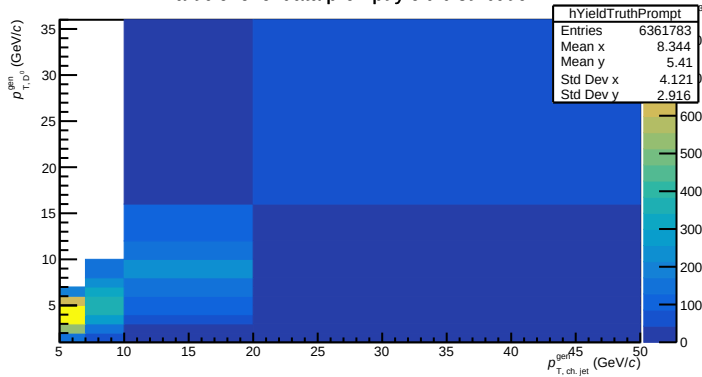

Corrected particle level data prompt yield distribution

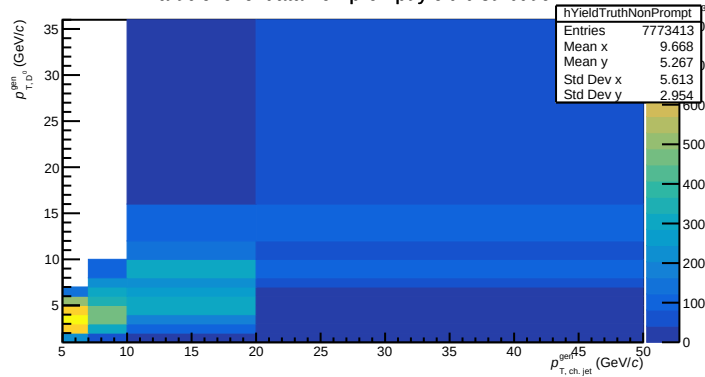

Corrected particle level data non-prompt yield distribution

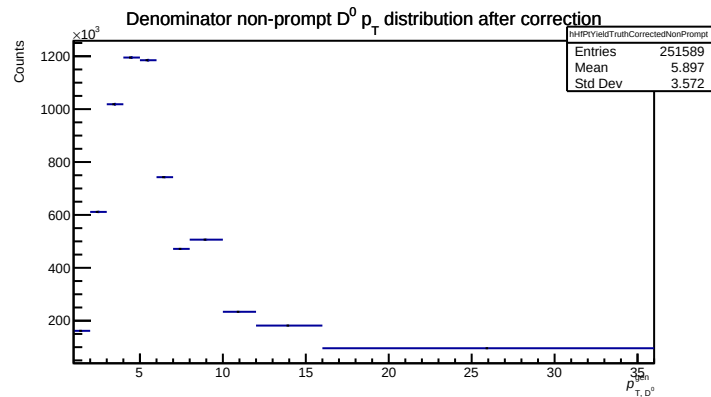

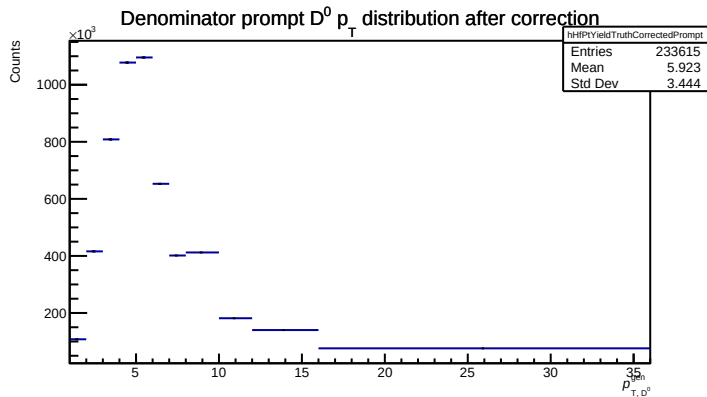

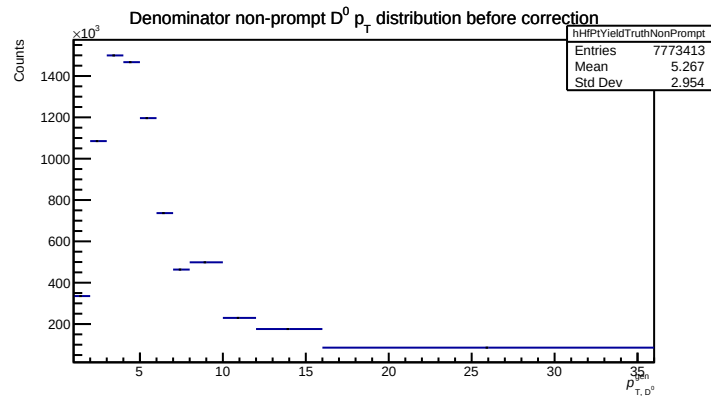

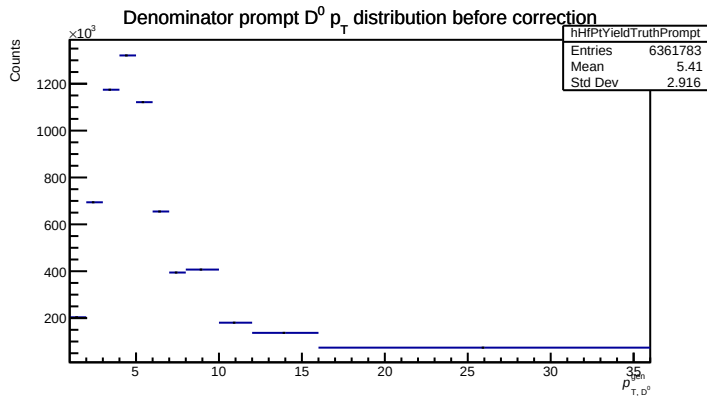

Particle level data prompt yield distribution

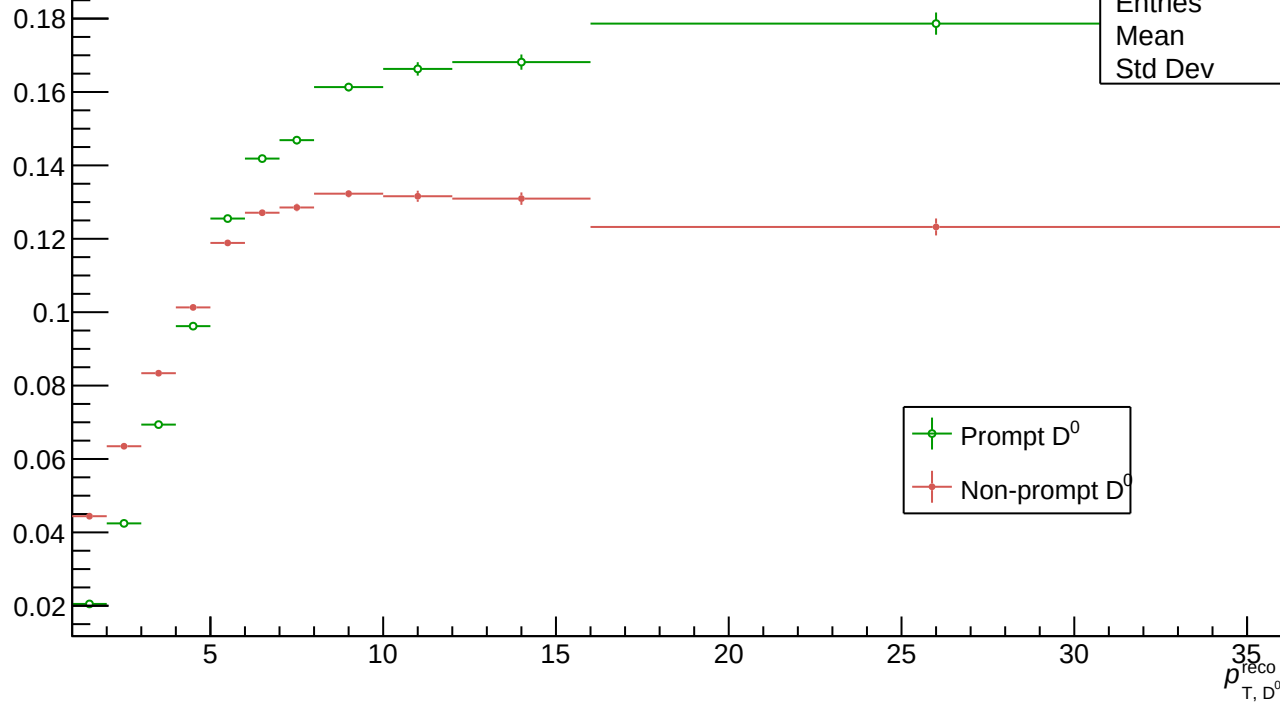

Particle level data non-prompt yield distribution

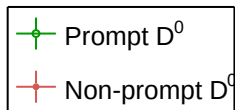

Efficiency prompt D^0 p_T distribution
